

智能笔记簿使用说明书

The instruction of Voice Recording notepad

一、功能特点: Functions and features

- 最长录音距离: 20m, 可根据环境或需要选择远/近录音模式

1.The furthest record distance: 20 m .According to the environment or need, you can choose a long or near distance recording mode

- 128M-8G 随机闪存, 录音时间 10-100h

2.Memory: 128M-8G, recording time:10h~100h

- USB2.0 高速数据传输, 录音文件可上传至电脑播放或永久保存

3.The USB 2.0 data delivers quickly and the recording document can be updowned to a computer to broadcast and permanently keep

- 录音音质清晰、高保真

Clear tone, high fidelity

- 音乐欣赏, 支持格式: MP3、WAV

Music enjoy.Support music format:MP3、WAV

- 可充电电池, 支持 USB 直接充电

.Have battery, and can be directly charged up with the USB

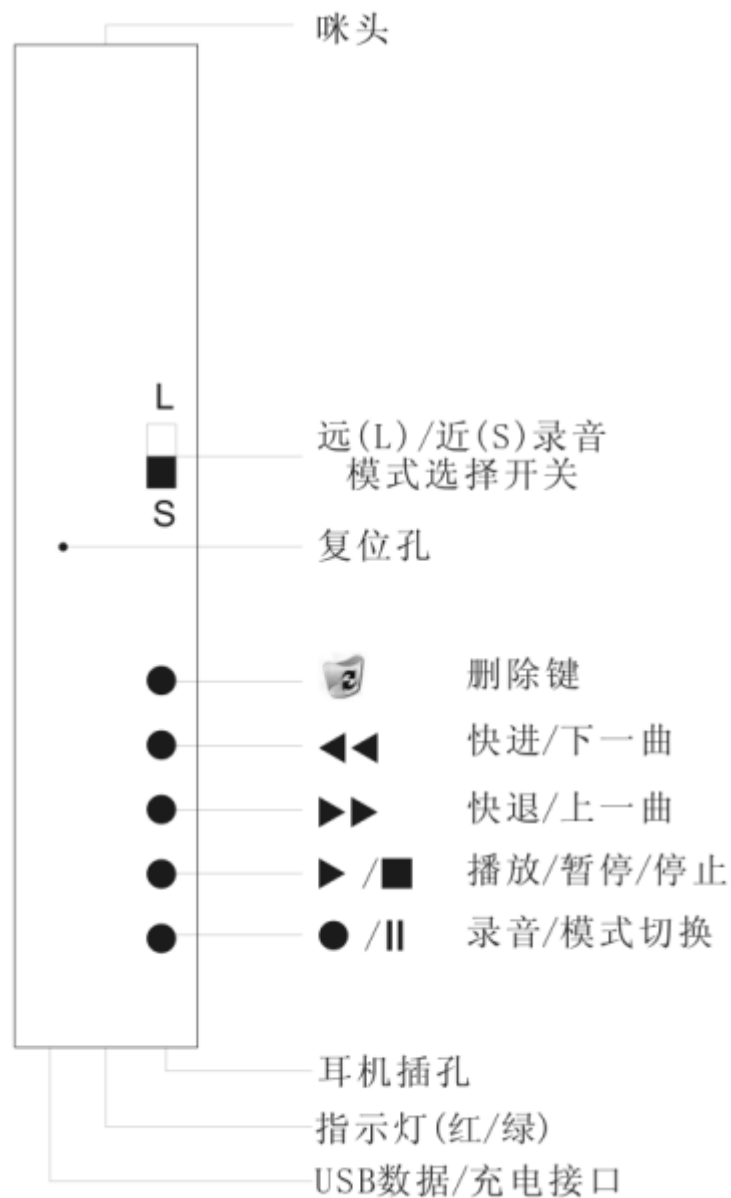

- 记录同时, 可同步录音

While you are noting,it is recording

- 精妙的隐蔽性设计, 简单实用

Well conceal the recorder , simple and useful

二、机芯面板图示: The lookings and recorder inside artwork

智能笔记簿有 1 个录音距离选择开关和 5 个功能按键。按键分别为：●/|| 录音键/模式切换、▶/■ 播放/暂停/停止、▶▶ 快进/上一曲、◀◀ 快退/下一曲、🗑️ 删除键、远/近距离录音模式选择开关 L/S、2 个状态灯（LED），状态灯包括充电（Charge）指示灯（红灯）和工作状态（Work Status）指示灯（绿灯）。充电状态下，红灯（Charge）指示灯长亮，充电结束后，红灯灭。绿灯（Work Status）有以下几种状态：灭、快闪（3Hz）、慢闪（1Hz）、长亮，一下为常用操作说明：There is one switch to choose the recording distance and 5 functional buttons , which are ●/|| record/mode-change, ▶/■ play/pause/stop, ▶▶ forward/last, ◀◀ backward/next, 🗑️ delete, far/short distance recording mode and choosing switch L/S, 2 stating light(LED), the stating light includes charge-indicating light(red) and working indicating light(green). Under charging , the red indicating light light up for a long time , when charging is over, the red light light off. The green light

has the following states: off, fast flash(3HZ), long lighting .

The following are instructinon of operation .

1、●/||: 录音/模式切换 recording/mode-change

开机初始化完毕后 (LED 红灯绿灯处于常亮状态), 按下该键即开始录音
录音时, LED 开始闪烁 (红灯处于快闪状态, 与此同时, 绿灯处于慢闪状态),
要结束录音, 按下该键即可!

When startizing is over(Red and green lights light up for a long time), prerss this button, recording begins and the LED flashes(red light fast flashes and green one slowly flashes) when start recording, to press again the same button the recording goes off.

2、▶/■: 播放/暂停/停止 play/pause/stop

长按该键 3s, 即可开机, 播放时按下该键即可暂停, 长按该键即关机

To press this button longer (3 seconds) recording notebook start itself ,to press this button the it stops when it is playing , long-press it the recording notebook turn iteslf off .

3、◀◀: 快进/下一曲 forward/next

在播放过程中, 按该键, 即可播放下一曲 MP3 或下一段录音文件; 长按则可成快进

To press this button through the play , it goes into next mp3 or next playable file , press the button longer changes into forward .

4、▶▶: 快退/上一曲 backward/last

在播放过程中, 按该键, 即可播放上一曲 MP3 或上一段录音文件; 长按则可成快退

To press this button through play, it goes into last mp3 or last playable file , press the button longer changes into forward

5、🗑️: 删除键 delete

在播放或暂停时, 长按该键, LED 灯快闪, 删除该文件, 并立即跳到上一段进行播放。若没有文件播放或完成最后一个文件播放时, 返回到待机状态

To press this button when playing or pausing , the LED light flashes fastly and go back to last part to play . If there is no file being played or the last file finish playing , it goes back to standby state.

6、L 远距离录音模式 L long distance recording mode

根据录音时所处的环境, 是属于嘈杂, 距离较远的情况下, 可将选择开关拨到 L 档

To choose L switch if the surroundings is noisy and far distance.

7、S 近距离录音模式 S short distance recording mode

录音环境较安静, 声源较近的情况下, 可将选择开关拨到 S 档

To choose S switch if the surroundings is quiet and short distance.

8、复位档 recover hole

在出现 LED 灯长亮, 使用其它键无任何作用时, 可以用较细的工具触发一下靠近录音模式选择档旁边的小圆孔, 此档不常用, 仅为备用

If the LED light light up for a long time and other buttons' function is

unavailable, to touch the round hole closer to the recording optional mode by a thin instrument, but this function cannot be used from time to time, this is only for unexpected accident.

三、配件: accessories

耳机、USB 数据线、充电器、说明书

Earphone , USB cable, charger and instruction sheet

四、售后服务: service of post-sale

品质问题，三天包换，一个月保修！（请注意保留购物收据单，保修时间以购买产品之日起计算）

Change a good item within 3 days if there is any quality problem and one month repairing term (please keep the order slip , the repairing promising Time is from the day of purchasing)
